

ATIM'S TOP 60[®] MASTERS

ArtTour International Magazine
proudly presents the ATIM MASTERS AWARD to

Prina Howard

For Outstanding Contribution To Arts & Culture

"... something amazing happens when the creator gives himself completely and surrenders to love- the painter becoming one with the canvas, the sculptor fusing with the stone. Art happens when the artist lets the masterpiece reveal itself. Then there is the fusion of two, with no one leading- just two becoming one, just love and art in a vast universe. That is how master artists work and how masterpieces are created; more often than not, the masterpiece outlives the master and remains as a testament to the miracle that once took place, when creation brought to life a creator and when the creator produced what the world considers a precious gift." - Viviana Puello
